Footwear Catalogue 2017/18

Stock and modular footwear for men, women and children

Featuring new designs and new last shapes

What's new

The new Options footwear catalogue has been developed in response to feedback from orthotists and patients alike. Our range includes new designs, an updated colours and materials range and new last shapes to offer greater choice.

Improvements include:

- + New shoe styles added to mens and womens range
- + New last shapes developed for mens and womens range
- + New childrens range
- + 'Classic' last shape updated
- + New toe shapes for additional cosmetic acceptance
- + Improved measuring guide
- + Updated colour range
- + Updated materials range
- + Improvements in manufacturing and quality processes
- + Improved checks for last accuracy
- + Investment in new technology to improve finish including heel counters and toe puffs
- + Change in insoles provided to 3mm A40 EVA, 3mm A30 EVA and Poron top layer with leather cover

Colours and materials

The colours and materials within this range have been carefully selected to maintain our core traditional styles, but also to include more fashionable colours, designs and textures.

CALF

This fine grain leather is durable and soft.

SOFTEE

Softee leather is smooth and malleable.

TEXTURED SOFTEE

A softee leather with a patterned texture embossed onto it.

NUBUCK

Attractive finish with a superb velvet-like surface.

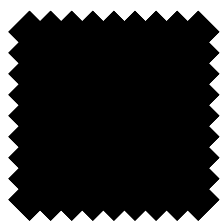

PATENT

High gloss finish that can be wiped clean with a damp cloth.

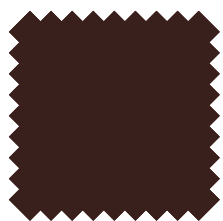

COLOURS AND MATERIALS RANGE

The following colours come with blind eyelets, bottle green, milk, aubergine and cobalt.

Lasts

There are three new choices of toe shapes; chisel toe and rounded toe for ladies and pointed toe for mens.

The original classic last has also been updated taking into account orthotist feedback.

For all new last shapes, two sizes in length for mens and one and a half for ladies have been added to the end of the last for cosmetic effect.

The measuring process will remain the same, but please note that shoes with additional cosmetic length will appear longer when they are delivered.

All shoes are available in all last options. Please consider toe shape on the style when ordering.

LADIES CHISEL TOE*

LADIES ROUNDED TOE

MENS POINTED TOE

THE CLASSIC LAST IS STILL AVAILABLE

*Please note this last is also available for the Berwick.

HEEL STIFFENERS

Rehabilitation heel stiffeners have a firm heel counter and are extended medially and laterally to behind the met heads.

Stability heel stiffeners are padded with additional height to below the collar and are extended forward on both sides to the mets.

Standard heel stiffeners are also available and are the default option.

Sole Units

Each style of shoe in this catalogue is pictured with the most popular sole material. Lightweight commando, mens trainer and kicker style sole units are only recommended by Options on certain styles (as featured in the catalogue).

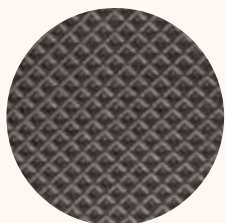

Some sole units featured are only available at an additional cost, this includes lightweight commando, kicker style, PU non-moulded and leather sole units.

For further information on this, please talk to your Key Account Manager or contact us via the details at the back of this catalogue.

Ladies shoes come with pipe welt as standard, except lightweight commando, leather and kicker style soles.

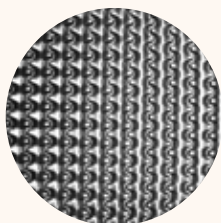

Mens shoes come with standard mock welt, except lightweight commando, kicker style and mens trainer soles.

* Please note: The kicker style sole units are not suitable for narrow last A

FEATURES

- + 9mm insole allowance
- + Lace or velcro alternatives
- + Diabetic option available, which includes plush lining, rim toe puff, padded collar and full quarters

STOCK/MODULAR/MADE TO MEASURE FOOTWEAR

The chart below gives guidance as to when footwear is stock (made to a pre-determined size and specification), modular (made with limited individual modifications) and made to measure – M2M.

	Stock	Modular	Made to Measure
Colour	Any in catalogue	Any in catalogue	Any
Material	Any in catalogue	Any in catalogue	Any
Style	Any in catalogue	Any in catalogue	Any
Size	As catalogue including 1/2 sizes	As catalogue including 1/2 sizes	Bespoke
Fitting	As catalogue including A, B and C last	As catalogue including A, B and C last	Bespoke
Last Adaptation	None	See last adaptation page (pg. 24)	Bespoke
Upper Modification	None	See upper modification page (pg. 24)	Bespoke
Sole Adaptation	Any	Any	Any
Trial Fit Available	No	Yes	Yes
Toe Puff	Standard/Rim	Standard/Rim	Any
Insole Allowance	9mm	See last adaptation page (pg.24), default 9mm	Any
Diabetic Specification	Yes	Yes	Yes

Please note: Made to Measure footwear is not included in the scope of this catalogue.

Last Adaptation

For stock footwear no last adaptations are possible.

For modular footwear, up to three adaptations per shoe can be made, each up to 12mm with the total last adaptation not exceeding 12mm over one point.

The default is to maintain tread width. Length can be increased by one size.

Lasts cannot be made smaller.

- + Length up to +1 size
- + Toe box depth up to +12mm
- + Medial joint width up to +12mm
- + Lateral joint width up to +12mm
- + Throat depth by up to +12mm
- + Instep depth by up to +12mm
- + Through depth by up to +12mm

Please record any depth increase as depth in mm, not circumference.

The formula is to half the circumference increase required to calculate the depth increase.

Upper Modification

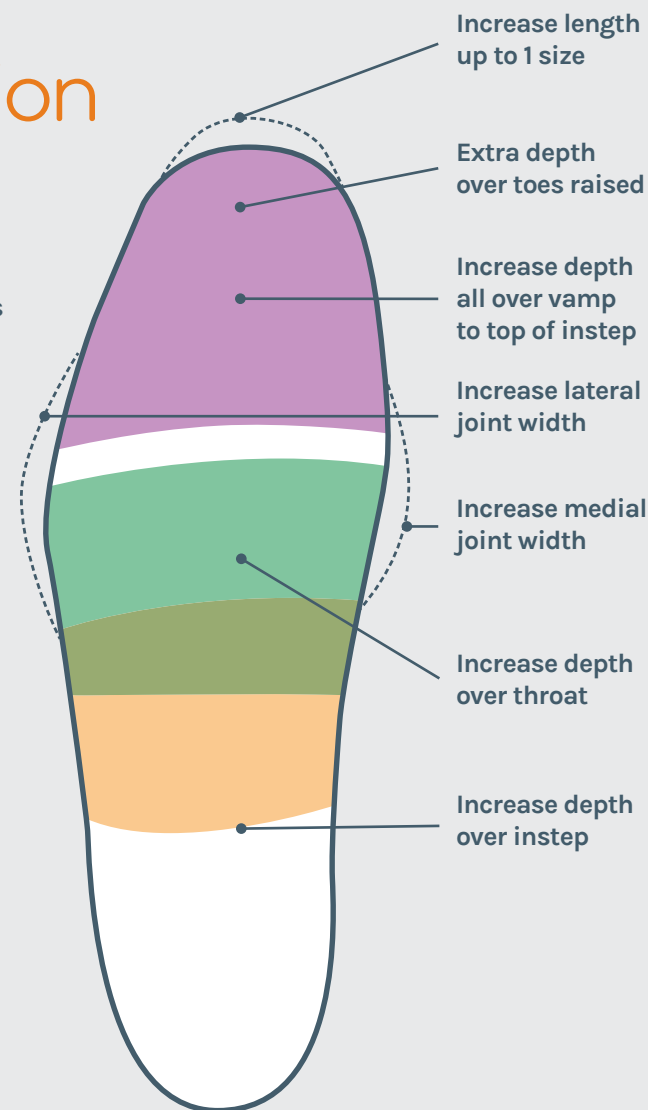

For stock footwear no upper modification is possible.

For modular footwear, the following modifications are possible with the standard upper:

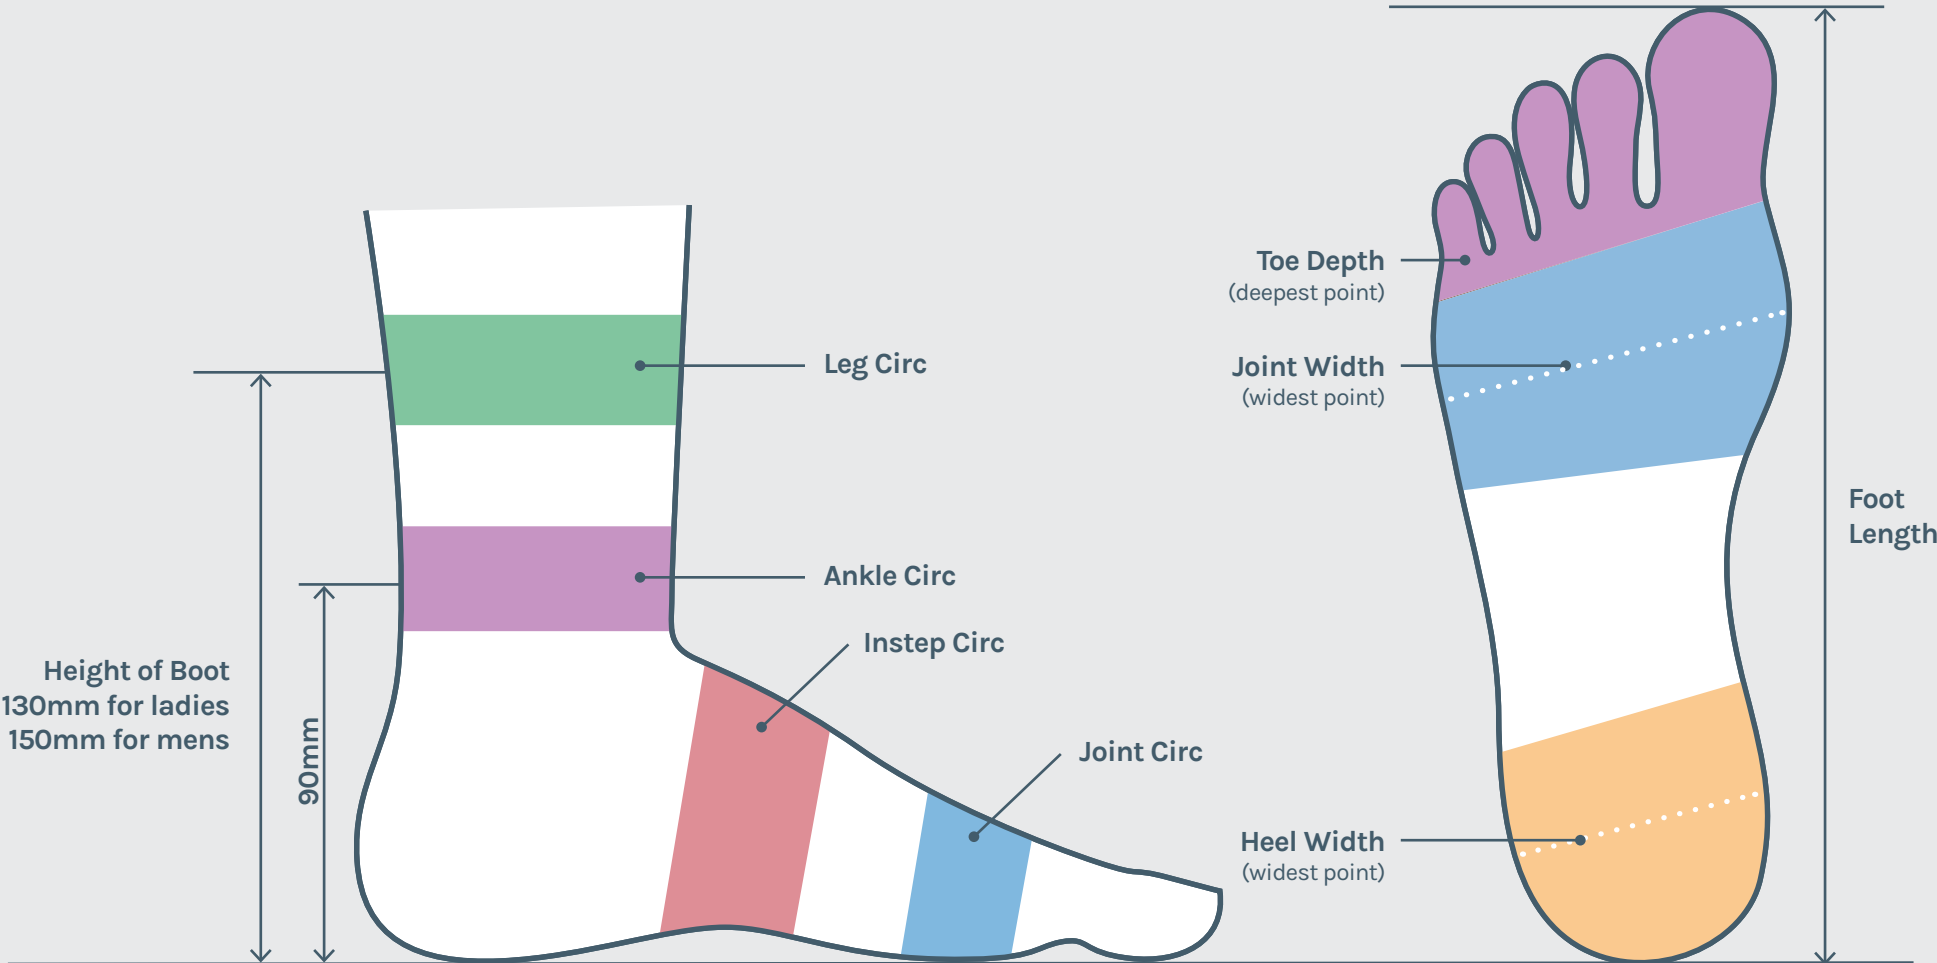

- + Raise or lower back collar height at the back by 9mm
- + Raise or lower medial or lateral collar height by 4mm
- + Alter straps to any length

A modular upper can be customised at an additional cost as follows:

- + Raise or lower back collar height by more than 9mm
- + Raise or lower medial or lateral collar height by more than 4mm
- + Lower facing points by up to 25mm to make a lower opening as detailed in charts on pages 13 and 19

Measuring Guide

Measuring Guide

Notes on the size charts:

- + As with standard practice, an allowance of 2.5 English shoe sizes should be added to the draw size to get the shoe size required
- + Where a range of numbers are given, the largest number refers to the volume in the shoe with all insoles removed, the smaller number refers to the volume in the shoe with 9mm of insoles inside
- + Deep & wide and deep fitting is deeper at the toe box than standard or wide fittings, not at the instep
- + Deep & wide and deep fittings do not come in A, B or C lasts
- + A lasts are narrower at the heel by 4mm
- + B lasts are shallower at the forefoot by 4mm
- + C lasts are narrower at the heel by 4mm and shallower at the forefoot by 4mm
- + Medial collar height will be 8mm lower than back collar height
- + Lateral collar height will be 12mm lower than back collar height

Tips:

- + It is simpler to change from one fitting to another, than it is to make a last adaptation
- + For every 3mm of depth required, the circumference increases by 6mm
- + At fitting, the guide on last and upper modifications remains. The total increase, including the initial modular increase, should not exceed 12mm over one point

Measuring Guide

These illustrations show the different variations on lasts

A
A lasts are narrower at the heel

B
B lasts are shallower at the forefoot - forefoot being from the joint forwards

C
C lasts are narrower at the heel and shallower at the forefoot - forefoot being from the joint forwards

STANDARD
Standard lasts have no modifications

SLIM
Slim lasts are slimmer along full length, heel width measure is less

DEEP
Deep lasts are deep at the forefoot from the joint forwards

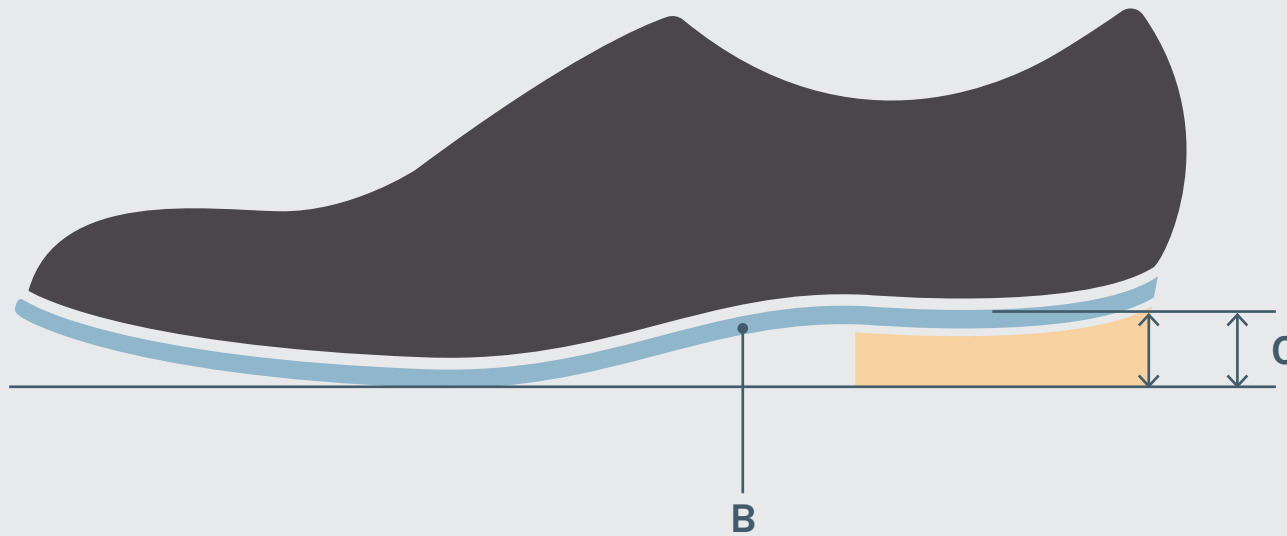

WIDE
Wide lasts are wider along full-length, heel measure is wider than standard

DEEP & WIDE
Deep & wide lasts are deeper on the forefoot only and wider along the full length

Legacy

As some colours and styles have been discontinued, it will not always be possible to place an order for an exact match to a legacy colour or style.

Costs for a legacy order will be greater than placing an order from the existing, updated stock and modular range. Please take careful consideration before making a legacy order and check first that the order can be placed.

Returns Policy

Options footwear manufactured on regular lasts and supplied in leather in black, willow or taupe and without alterations/adaptations or split size/fittings may be returned for a full refund.

Footwear manufactured on regular lasts and supplied in leather in any other colour, and without alterations and adaptations or split sizes/fittings, may be returned subject to a 25% handling charge.

Returns must be made within 90 days of receipt, in the original box and in their original condition. A returns authorisation number must be obtained from customer service before the footwear is returned.

Patient specific footwear, including split sizes, split fittings, non-standard leather (calf is standard), last or upper altered or adapted footwear are non-returnable.

Single shoes, boots and worn footwear are non-returnable.

Orders

We pride ourselves on offering first class customer service. Each customer is provided with their own Key Account Manager and Customer Service Representative and can call our dedicated helpline (Monday to Friday 8:00am – 5:00pm).

Orders should be submitted via phone, email, scan, fax or post. It will then be placed into our internal system, manufactured and posted via courier to the requested address.
