

## Job Vacancy – .NET Developer, Head Office, Newcastle

Peacocks Medical Group has a number of exciting opportunities within our IT department, and is currently looking for an experienced .NET developer

Peacocks Medical Group is a fourth generation, family owned company and a national leading orthotics provider of service and product to the NHS and the private sector

As a successful .NET developer you'll already have confidence in your core skills whilst being aware of what you don't know yet with a desire to learn and develop. A strong sense of personal belief is important, supported by previous experiences, references, and lessons learned on the way. Based in our Newcastle office you will be at the heart of our business systems team creating and enhancing innovative software applications for our NHS and private customers nationally.

### We're looking for a .NET developer who is:

- Highly motivated
- Able to adapt quickly to an existing, complex environment
- A team-player
- Excellent with written and verbal communication skills
- Experienced with Agile/SCRUM methodology of software development
- Self-Directed
- Experienced in developing applications using Microsoft .NET framework, C#, WPF, Windows Forms and SQL Server
- Experienced with layering code into UI, Business and Data Access layers
- Experienced in developing and maintaining desktop applications written in .NET

### Required qualifications, skills and experience:

- Bachelor's degree in Computer Science or related field, or equivalent experience
- Strong development skills with .NET with C# on Visual Studio 2012 and Higher. Application is currently built using Windows Forms and WPF.
- Experience with WPF framework using MVVM pattern
- Strong knowledge of XML and using it effectively in .NET framework
- Unit Testing using Mocking frameworks (Rhino Mocks or similar), NUnit
- SQL Server Development (TSQL, Stored Procedures)
- Web Service /API development & integration (WCF, REST API) - Must have experience integrating an Web-based API into a .NET Application following best practices for performance and maintainability
- Entity Framework (Must have used this heavily and knows the best practices)
- Strong Object Oriented development skills (knowledgeable with Inheritance, Interface usage, Dependency injection)
- TFS and/or GIT for source control
- Agile development using SCRUM

### Preferred Skills:

- Highly Preferred - Development experience in Health Care industry focusing on HL7, CDA and QRDA document formats
- Previous Windows Forms development using C#
- Knowledge and Application of Design Patterns

The successful candidate should be comfortable reviewing extensive Healthcare technology documentation to extract needed requirements and work with Business Analysts to refine & Implement solutions.

### Remuneration and Benefits

For the successful candidate, Peacocks is offering a competitive salary of up to £40,000 per annum and a generous pension scheme. We also have
